Additional Information:

Once we receive notification that you have decided to accept our quote, we will notify Gil and schedule you in. If there is a conflict with the proposed start date, we will contact you to arrange an alternate date.

To maintain and improve the safety of our workers, prevent property damage and eliminate delays due to underground utility conflicts, our office will complete a locate request with Alberta One Call 3-4 days prior to the start date and have all underground facilities marked. By completing the 1st call, we can provide a hard copy of all locates to our operator to have on site during excavation.

The following information will be required prior to your project start date:

- Grade Certificate; *provided by the building permit municipality*
- Plot Plan; *provided by your surveyor*
- Stake out date; *scheduled with your surveyor: _____*

- Basement window rough openings; *found in your window package*
- Beam pocket sizes; *found in your truss package*
- Telepost pad sizes; *found in your truss package*
